

## HOMEOWNER SERVICE LINE MATERIAL VERIFICATION FORM

The Ohio EPA requires that all Public Water Systems submit a completed Service Line Inventory no later than Oct. 16, 2024. Your home is on our list of unknown service line material.

Please email a scanned image or photograph of the completed form to [dover.surveys@doverohio.com](mailto:dover.surveys@doverohio.com) or call 330-343-4116 to have a water dept. employee fill out the form based on your responses from 8AM-7PM, any day.

The water service line comes into your building from the street. It is typically located in a utility room on the lowest level of the building or crawl space. The service line will be connected to the water meter.

**HOMEOWNER NAME** \_\_\_\_\_

**ADDRESS** \_\_\_\_\_ **HOME CONSTRUCTION DATE IF KNOWN (YEAR)** \_\_\_\_\_

**SERVICE LINE MATERIAL (CIRCLE)**      **COPPER**      **GALV.**      **LEAD**      **YEAR INSTALLED** \_\_\_\_\_

*The service line is the line coming from the city street to your water meter.*

*This is the only line that we need to know the material of for the survey.*

You have a lead pipe if...

**The Scratch Test**  
...the scraped area is shiny and silver.

**The Magnet Test**  
...the magnet will not stick to the pipe.

You have a copper pipe if...

**The Scratch Test**  
...the scraped area is copper in color, like a penny.

**The Magnet Test**  
...the magnet will not stick to the pipe.

You have a galvanized pipe if...

**The Scratch Test**  
...the scraped area remains a dull gray.

**The Magnet Test**  
...the magnet sticks to the pipe.
